# Fairy Oak: Farewell to Fairy Oak

## A lighthearted, moving story of a magical encounter

---

Telli has gone back home.

In the fifteen years she has spent far away, she always wrote to her companions at home, describing the village, the girls, and all the incredible adventures she had had with them and their fantastic friends.

So much so that now the fairies want to know more, they want her to tell them again, in fact, they don't her to stop, ever!

They ask for new stories, new anecdotes, to know all about the village of the Enchanted Oak and its inhabitants.

Telli gladly agrees and promises four new stories: they will allow her to stay in the company of her memories and to live those wonderful days again.

Yes, but for how much longer? Sooner or later she will have to put the past aside and face the future.

She knows this, and now, with only one story left, she feels her heart beating hard: will she manage to say farewell to Fairy Oak?

Her last story is intense and moving, and yet it conceals a mystery, and reveals a prophecy...
